Sanatana Resources Inc.

Notes to the Condensed Interim Financial Statements

For the six months ended September 30, 2016

1. Nature of Operations and Continuance of Operations

Sanatana Resources Inc. ("Sanatana" or the "Company") was incorporated as Sanatana Diamonds Inc. on June 25, 2004 under the British Columbia Business Corporations Act. The Company changed its name to Sanatana Resources Inc. on April 28, 2011. Sanatana is an exploration stage company, and its principal business activity is the acquisition, exploration and development of mineral properties. At September 30, 2016, the Company held interests in certain Saskatchewan diamond exploration claims but is evaluating other properties.

The Company is in the process of exploring its mineral property interests and has not yet determined whether its mineral property interests contain mineral reserves that are economically recoverable. The Company has not generated revenue from operations. The Company incurred a loss of \$213,341 during the six months ended September 30, 2016 and, as of that date the Company's deficit was \$47,170,247. As the Company is in the exploration stage, the recoverability of the costs incurred to date on exploration properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its properties and upon future profitable production or proceeds from the disposition of the properties and deferred exploration expenditures. These material uncertainties may cast significant doubt upon the Company's ability to continue as a going concern. The Company will periodically have to raise funds to continue operations and, although it has been successful in doing so in the past, there is no assurance it will be able to do so in the future. The Company had cash of \$838,708 at September 30, 2016 (March 31, 2016 - \$1,160,283).

The business of exploring for and mining of minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. Changes in future conditions could require material write-downs of the carrying values of the exploration and evaluation assets.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, unregistered claims, and non-compliance with regulatory requirements.

The head office and principal address of the Company are located at Suite 1910 - 925 West Georgia Street, Vancouver, British Columbia, V6C 3L2. These financial statements were authorized for issue by the audit committee on November 25, 2016.

2. Basis of Presentation

The financial statements are presented in Canadian dollars, which is the functional currency of the Company.

Statement of Compliance

These condensed interim financial statements of the Company for the six months ended September 30, 2016 have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34") using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"), on a basis consistent with the significant accounting policies disclosed in note 3 of the most recent annual financial statements as at and for the year ended March 31, 2016 as filed on SEDAR at www.sedar.com. The condensed interim financial statements do not include all of the information required for full annual financial statements.

Sanatana Resources Inc.

Notes to the Condensed Interim Financial Statements

For the six months ended September 30, 2016

2. Basis of Presentation (continued)

Basis of Measurement

The financial statements have been prepared on a historical cost basis.

The financial information is presented in Canadian dollars, which is the functional currency of the Company.

Critical accounting estimates and assumptions

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive loss/income in the period of the change, if the change affects that period only, or in the period of the change and future periods, if the change affects both.

Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year are discussed below:

Rehabilitation Provisions

Rehabilitation provisions have been created based on the Company's internal estimates with future period amounts discounted to reflect the time value of money. Assumptions, based on the current economic environment, have been made which management believes are a reasonable basis upon which to estimate the future liability. These estimates take into account any material changes to the assumptions that occur when reviewed regularly by management. Estimates are reviewed annually and are based on current regulatory requirements. Significant changes in estimates of contamination, restoration standards and techniques will result in changes to provisions from period to period. Actual rehabilitation costs will ultimately depend on future market prices for the rehabilitation costs which will reflect the market condition at the time the rehabilitation costs are actually incurred. The final cost of the currently recognized rehabilitation provisions may be higher or lower than currently provided for.

Exploration and Evaluation Expenditures

The application of the Company's accounting policy for exploration and evaluation expenditure requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after the expenditure is capitalized, information becomes available suggesting that the recovery of the expenditure is unlikely, the amount capitalized is written off in the profit or loss in the period the new information becomes available.

Title to Mineral Property Interests

Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.

Sanatana Resources Inc.

Notes to the Condensed Interim Financial Statements

For the six months ended September 30, 2016

2. Basis of Presentation (continued)

Income Taxes

Significant judgment is required in determining the provision for income taxes. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The Company recognizes liabilities and contingencies for anticipated tax audit issues based on the Company's current understanding of the tax law. For matters where it is probable that an adjustment will be made, the Company records its best estimate of the tax liability including the related interest and penalties in the current tax provision. The Company believes it has adequately provided for the probable outcome of these matters; however, the final outcome may result in a materially different outcome than the amount included in the tax liabilities.

In addition, the Company recognizes deferred tax assets relating to tax losses carried forward to the extent there are sufficient taxable temporary differences (deferred tax liabilities) relating to the same taxation authority and the same taxable entity against which the unused tax losses can be utilized. However, utilization of the tax losses also depends on the ability of the taxable entity to satisfy certain tests at the time the losses are recouped.

Share-based Payment Transactions

The Company measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. Estimating fair value for share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in note 10.

3. Cash and Cash Equivalents

Cash at banks and on hand earns interest at floating rates based on daily bank deposit rates. Short-term investment deposits included in cash and cash equivalents bear interest at 0.35% to maturity.

4. Receivables

Watershed property	4,410,844	(2,389,300)	(2,021,544)	-

In February 2011, the Company entered into an option and joint venture agreement with Augen Gold Corp., which was subsequently acquired by Trelawney Mining and Exploration Inc. and renamed Trelawney Augen Acquisition Corp. ("TAAC"). In turn, Trelawney Mining and Exploration Inc. was purchased by IAMGOLD Corporation. By making cash payments, issuing common shares and undertaking exploration, the Company earned an interest in mineral concessions located in Ontario and owned by TAAC. The Company sold its interest in the Watershed Property in March 2016.

Green Lake Project

The Company acquired its rights to the Green Lake Diamond Exploration Property in two stages. The Company has identified kimberlite indicator minerals in the area and there have been local reports of kimberlite float. Some of the area of interest lies in the Municipality of Green Lake, a Meti community. Sanatana has engaged in access negotiations with the local community but has not yet reached an agreement.

At March 31, 2016, the Company completed a review of the Green Lake property. Due to uncertainty regarding the outcome of land access negotiations, the Company fully impaired the project's carrying value.

For the six months ended September 30, 2016

6. Equipment (continued)

At December 31, 2015, the Company concluded that changes in the exploration sector had resulted in a permanent impairment of the carrying value of its drill. Accordingly, the Company recorded a \$65,000 impairment provision to adjust the carrying value of the drill to its expected fair value less costs of disposal.

In March 2016, the Company sold its drill as settlement of debt with one of its creditors for \$68,217.

Sanatana Resources Inc.

Notes to the Condensed Interim Financial Statements

For the six months ended September 30, 2016

9. Share Capital and Reserves

Authorized share capital

Authorized share capital comprises an unlimited number of common shares with no par value.

Common Shares

Fiscal 2016

As part of the agreement of sale of the Watershed Property to TAAC, TAAC and its affiliates returned 6,987,239 common shares of the Company valued at \$69,872.

The following is a summary of changes in common share capital from March 31, 2015 to September 30, 2016:

	Number of Shares	Share Price \$	Common Shares \$
Balance - March 31, 2015	127,761,073		42,776,892
Shares returned to treasury	(6,987,239)	0.01	(69,872)
Balance - March 31, and September 30, 2016	120,773,834		42,707,020

Reserves

Reserves comprise the fair value of stock option grants and agent warrants prior to exercise. The following is a summary of changes in reserves from March 31, 2015 to September 30, 2016:

	\$
Balance March 31, 2015	4,733,571
Share-based compensation	2,200
Balance March 31, and September 30, 2016	4,735,771

Sanatana Resources Inc.
Notes to the Condensed Interim Financial Statements
For the six months ended September 30, 2016

9. Share Capital and Reserves (continued)

Warrants

The Company's movement in share purchase warrants is as follows:

	September 30, 2016		March 31, 2016	
	Number Of Warrants	Weighted Average Exercise Price	Number Of Warrants	Weighted Average Exercise Price
Balance, beginning of period	1,250,000	\$0.15	13,455,000	\$0.12
Expired	-	-	(12,205,000)	0.12
Balance, end of period	1,250,000	0.15	1,250,000	0.15

Subsequent to period-end, all warrants expired unexercised.

Nature and Purpose of Reserves and Deficit

The reserves recorded in equity on the Company's statement of financial position comprise contributed surplus and deficit. Reserves are used to recognize the fair value of share option grants and agent warrants prior to exercise. Deficit records the Company's cumulative earnings or loss.

10. Share-Based Payments

The Company has a rolling stock option plan that allows the Company's board of directors to issue options to purchase up to 10% of the common shares outstanding at the grant date. Directors, officers, consultants and employees of the Company are eligible to receive stock options, subject to the policies of the TSX Venture Exchange. The directors may set option terms, but options granted under the plan typically have a life of five years and vest over an 18-month period. Share-based payments expense is amortized over the vesting period. The Company's shareholders reconfirmed the option plan in December 2015.

Sanatana Resources Inc.

Notes to the Condensed Interim Financial Statements

For the six months ended September 30, 2016

10. Share-Based Payments (continued)

In fiscal 2015, the Company committed to grant options to purchase up to 500,000 common shares and accrued a value for those options of \$13,000. The Company subsequently adjusted the value of that accrual to reflect changes in the trading price of the shares. The comparative period comprehensive loss includes a \$2,000 recovery of stock-based compensation in this regard.

	September 30, 2016		March 31, 2016	
	Number Of Options	Weighted Average Exercise Price	Number Of Options	Weighted Average Exercise Price
Balance, beginning of period	4,950,000	\$0.27	11,825,000	\$0.25
Forfeited or expired	-	-	(6,875,000)	0.24
Balance, end of period	4,950,000	\$0.27	4,950,000	\$0.27

Summary of outstanding options at September 30, 2016:

Exercise Price Range	Outstanding Options			Exercisable Options	
	Number	Weighted Average Exercise Price	Weighted Average Remaining Life	Number	Weighted Average Exercise Price
\$0.10	1,900,000	\$0.10	2.37 years	1,900,000	\$0.10
\$0.30-\$0.35	2,550,000	0.35	0.73 years	2,550,000	0.35
\$0.40-\$0.50	500,000	0.48	0.24 years	500,000	0.48
	4,950,000	\$0.27	1.31 years	4,950,000	\$0.27

The Company incurred an expense of \$nil (2015 – recovery of \$3,300) for share-based payments for the period ended September 30, 2016.

In the current fiscal period, there was no share-based compensation expense. In the comparative period, the fair value of the share-based payments was estimated using the Black-Scholes option pricing model with the following assumptions:

For the six months ended September 30,	2015
Dividend yield	0%
Risk-free interest rate	1.2%
Estimated volatility	97%
Expected life in years	4.6

Sanatana Resources Inc.

For the six months ended September 30, 2016

11. Related Party Transactions and Balances

The Company incurred key management and board of directors' compensation as follows:

	Three months ended		Six months ended	
	September 30,		September 30,	
	2016	2015	2016	2015
	\$	\$	\$	\$
Key management personnel compensation				
Salary	30,000	45,000	60,000	90,000
Director fees	-	33,810	-	67,810
Short-term benefits	1,485	1,098	2,214	2,196
Management fees - expensed	1,740	3,850	7,630	8,110
Share-based payments	-	(4,500)	-	(4,500)
Total	33,225	79,258	69,844	163,616

Included in the above is compensation paid through companies:

S2 Management Inc.	1,740	3,850	7,630	8,110
--------------------	-------	-------	-------	-------

S2 Management Inc. is controlled by the Company's CFO.

Balances due to related parties that are included in accounts payable and accrued liabilities comprise:

	September 30, 2016	March 31, 2016
	\$	\$
Directors and officers	298,596	298,596
S2 Management Inc.	651	1,554
	299,247	300,150

Related party balances are due on demand, bear no interest and are current liabilities.

12. Loss per Share

The calculation of the basic and diluted loss per share for the years presented is based on the following data:

	Three months ended		Six months ended	
	September 30,		September 30,	
	2016	2015	2016	2015
	\$	\$	\$	\$
Loss for the period	(99,525)	(289,626)	(213,341)	(84,361)
Weighted average number of common shares outstanding	120,773,834	127,761,073	120,773,834	127,761,073
	(0.00)	(0.00)	(0.00)	(0.00)

Diluted loss per share for the six months ended September 30, 2016 and 2015 is the same as basic loss per share as the impact of the exercise of the share options and warrants is anti-dilutive.
