Supplementary cash flow information (note 13)

The accompanying notes are an integral part of these financial statements

1. Nature of Business and Basis of Presentation

Sanatana Diamonds Inc. ("Sanatana" or the "Company") was incorporated on June 25, 2004 in the Province of British Columbia under the British Columbia Business Corporations Act. The Company is an exploration stage company, and its principal business activity is the acquisition, exploration and development of properties. The Company has mineral property rights in the Northwest Territories which it is exploring and developing in a joint venture with Rio Tinto Exploration Canada Inc. ("Rio Tinto"), formerly Kennecott Canada Exploration Inc., and has entered into an option agreement to acquire an exploration property in the Yukon Territory.

These unaudited interim consolidated financial statements have been prepared in accordance with Canadian GAAP for the presentation of interim financial information. These financial statements do not include all disclosures required for annual financial statements and therefore should be read in conjunction with the most recent audited annual consolidated financial statements of the Company for the year ended March 31, 2010.

The Company is in the process of exploring its mineral property interests and has not yet determined whether its mineral property interests contain mineral reserves that are economically recoverable. The Company's continuing operations, and the underlying value and recoverability of the amounts shown for mineral properties are entirely dependent upon the existence of economically recoverable mineral reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its mineral property interests, and on future profitable production or proceeds from the disposition of the mineral property interests.

The business of exploring for and mining of minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. Changes in future conditions could require material write-downs of the carrying values.

Although the Company has taken steps to verify title to the properties in which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, unregistered claims, and non-compliance with regulatory requirements.

Certain comparative figures have been reclassified to conform to the presentation used in the current period.

2. Ability to Continue as a Going Concern

The accompanying financial statements have been prepared in accordance with Canadian generally accepted accounting principles ("GAAP") applicable to a going concern, under which material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern must be disclosed. These financial statements do not reflect any adjustments to the carrying values of the assets and liabilities, the reported expenses, and the balance sheet classifications used that would be necessary if the going concern assumption were not appropriate. Such adjustments could be material. As at June 30, 2010 the Company has no source of operating cash flow and has an accumulated deficit of $27,087,352. Operations from inception through June 30, 2010 have been funded primarily from issuances of capital stock and from contributions received from Rio Tinto. Should the current weak market for diamond exploration persist, management expects challenges raising further financing.

(Expressed in Canadian dollars)

3. Accounting Pronouncements

The Company plans to adopt accounting pronouncements as follows:

i. Section 1582, "Business Combinations". This section establishes the standards for the accounting of business combinations, and states that all assets and liabilities of an acquired business will be recorded at fair value. Obligations for contingent considerations and contingencies will also be recorded at acquisition date fair value. The standard also states that acquisition-related costs will be expensed as incurred and that restructuring charges will be expensed in the periods after the acquisition date. This standard is equivalent to the International Financial Reporting Standards on business combinations. The Company will be required to adopt this standard prospectively for business combinations with acquisition dates on or after April 1, 2011, but may adopt the standard sooner. The Company is currently evaluating the impact of adopting this standard on its financial statements.

ii. On February 13, 2008, the CICA Accounting Standards Board adopted a strategic plan for the direction of accounting standards in Canada. As part of that plan, accounting standards in Canada for public companies will converge with International Financial Reporting Standards ("IFRS") by 2011. The Company's first year end under IFRS will be March 31, 2012. The Company has completed a high-level scoping study and concluded that the following IFRS standards will have the most significant impact:

- IFRS 1 – First-time adoption of IFRS
- IFRS 2 – Share Based Payments
- IFRS 6 – Exploration and evaluation of mineral resources
- IAS 16 – Property, plant and equipment
- ED 9 – Joint arrangements (replacing IAS 31 – Interests in joint ventures)
- IAS 36 – Impairment of Assets

In addition, while IFRS does not prescribe how to account for flow-through shares, common practice may differ from Canadian GAAP and some adjustment to shareholders' equity may be required on the first-time adoption of IFRS.

The Company has updated its accounting procedures so as to collect information required under IFRS.

4. Amounts Receivable

	June 30, 2010	March 31, 2010
GST receivable	$ 7,126	$ 6,814
Due from employees (note 10)	22,267	21,267

(Expressed in Canadian dollars)

5. Mineral Properties (Continued)

The Company is required to make deposits against its Northwest Territories mineral permits to guarantee its performance and has $446,975 on deposit as at June 30, 2010 (March 31, 2010 - $446,975).

In June 2010, the Company entered into a non-binding letter of intent to form a joint venture to explore for bedrock gold mineralization on the Boulder Claim Group. As consideration, Sanatana has paid $38,640 to maintain the Boulder Claim Group in good standing until June 2011.

6. Property and Equipment

	Office Furniture	Computer Equipment	Leasehold Improvements	Exploration Equipment	Total
Cost					
At March 31, 2009	$ 34,703	$ 25,663	$ 41,357	$ 363,497	$ 465,220

At March 31, 2009	16,311	1,603	-	267,989	285,903
At March 31, 2010	9,375	234	-	195,293	204,902
At June 30, 2010	$ 7,641	$ 885	$ -	$ 177,119	$ 185,645

The amortization change for the period comprises $1,878 expensed to operations (2009 - $2,494) and $18,174 capitalized to mineral properties (2009 - $18,174).

(Expressed in Canadian dollars)

7. Common Shares

a) Authorized share capital

Authorized share capital comprises an unlimited number of common shares with no par value.

b) Issued share capital

At June 30, 2010 there were 62,762,623 common shares issued and outstanding (March 31, 2010 - 62,762,623 common shares).

8. Share Purchase Warrants

The Company's movement in share purchase warrants is as follows:

	June 30, 2010		March 31, 2009	
	Number Of Warrants	Weighted Average Exercise Price	Number Of Warrants	Weighted Average Exercise Price
Balance, beginning of year	-	-	9,657,769	$0.61
Granted	-	-	-	-
Expired	-	-	(9,657,769)	0.61
Balance, end of year	-	-	-	-

9. Stock Options

In 2005, the Company's shareholders approved a stock option plan (the "2005 Option Plan") which is a "rolling" plan that provides for the issuance to directors, officers, consultants and employees of the Company up to 10% of the common shares of the Company issued and outstanding at the date of the stock option grant. In July 2007, the Company's shareholders approved a stock option plan with similar provisions to the 2005 Option Plan under the rules of the Exchange. The 2007 stock option plan is considered a continuation of the 2005 Option Plan and was most recently confirmed by shareholders in September 2009. The directors may set option terms, but options granted under the plan typically have a life of five years and vest over an 18-month period. Stock option compensation expense is amortized over the vesting period.

The Company amortizes stock-based compensation expense over the respective vesting period of the options granted and recorded $nil of stock-based compensation in the three-month period ended June 30, 2010 (2009 - $92,000).

(Expressed in Canadian dollars)

9. Stock Options (continued)

For the three months ended June 30,	2010		2009	
	Number Of Options	Weighted Average Exercise Price	Number Of Options	Weighted Average Exercise Price
Balance, beginning of year	5,220,000	$1.16	5,220,000	$1.16
Granted	-	-	-	-
Forfeited	-	-	-	-
Balance, end of year	5,220,000	$1.16	5,220,000	$1.16

Summary of outstanding options at June 30, 2010:

	Outstanding Options			Exercisable Options	
Exercise Price Range	Number	Weighted Average Exercise Price	Weighted Average Remaining Life	Number	Weighted Average Exercise Price
$0.75-$1.00	2,020,000	$0.80	2.27 years	2,020,000	$0.80
$1.01-$1.40	3,200,000	$1.38	2.14 years	3,200,000	$1.38
	5,220,000	$1.16	2.19 years	5,220,000	$1.16

The Company valued options using the Black-Scholes options pricing model with the following assumptions:

For the three months ended June 30,	2010	2009
Expected dividend yield	-	0%
Expected volatility	-	86.9%
Risk-free interest rate	-	2.9%
Expected life	-	5.0 years

(Expressed in Canadian dollars)

10. Related Party Transactions

At June 30, 2010, the Company had three employees and had arrangements with a number of contractors to provide administrative, accounting and management services. Certain directors and significant shareholders provided management and consulting services to the Company.

Related party transactions in the periods presented were:

Three Months Ended June 30, 2010	Director Fees	Management Fees and Salaries	Capitalized Technical Services Fees	Exploration Expense Contribution (note 5)

	$ 10,000	$ 22,200	$ 10,000	$ 66,622

a) Mr. Miles is the Company's President and CEO, and a director.
b) Lithosphere Servies Inc. is controlled by Mr. Doyle the Company's VP Exploration and a director
c) S2 Management Inc. is controlled by the Company's CFO
d) Kennecott is a shareholder of the Company (note 5).

(Expressed in Canadian dollars)

10. Related Party Transactions (Continued)

During fiscal 2010, Canada Revenue Agency ("CRA") concluded that certain contractors of the Company were actually employees and required that the Company make payroll remittances in respect of those individuals. The individuals will receive a refund of $22,267 from CRA and have agreed to return these amounts to the Company, when received (note 4).

Balances included in accounts payable and accrued liabilities are as follows:

As at June 30,		2010		2009
Directors and insiders	$	10,000	$	10,000
Lithosphere Services Inc.		5,000		5,250
S2 Management Inc.		3,528		2,279

Related party balances are due on demand, bear no interest and are current liabilities.

11. Commitments

a) Under the terms of an agreement dated November 25, 2004 with Kiska Metals Corporation, formerly Geoinformatics Explorations Inc. ("Kiska"), a company in which one of the Company's directors was formerly chief executive officer, Kiska is entitled to a 0.9% gross overriding royalty in respect of the MacKenzie Diamond project.

b) A member of Jaeger Joint Venture, from which the Company purchased an interest in the MacKenzie Diamond Project, is entitled to a 2% net sales revenue royalty from that project.

c) The Company is contractually committed under a lease agreement to make payments as follows:

Year ending March 31,	
2011	$ 90,084
2012	78,950
	$169,034

12. Capital Management

The Company considers items included in its shareholders' equity as capital. The Company's objectives in managing capital are to ensure that it has sufficient funds to complete its planned exploration activities; maintain creditor confidence; and to safeguard the Company's ability to obtain further financing when the need arises.

The Company does not have any externally imposed capital requirements. In maintaining its capital, the Company has a strict investment policy which includes investing surplus cash only in highly liquid, highly rated financial instruments. The Company regularly reviews its capital management approach. There were no changes in the Company's approach to capital management during the year.

(Expressed in Canadian dollars)

13. Supplementary Cash Flow Information

For the three months ended June 30,		2010		2009
Interest and taxes paid	$	-	$	-
Non-cash investing activities:				
Amortization in mineral properties		18,174		18,174

14. Financial Risk Management

Interest Rate Risk
The Company's interest rate risk mainly arises from changes in the interest rates on cash and equivalents. Cash and equivalents generate interest based on market interest rates. At June 30, 2010, the Company was not subject to any significant interest rate risk.

Credit Risk
Credit risk arises from the non-performance by counterparties of contractual financial obligations. The Company's credit risk arises primarily with respect to money market investments.

The Company manages its credit risk by investing only in obligations of any province of Canada, Canada or their respective agencies; banker's acceptances purchased in the secondary market and having received the highest credit rating from a recognized rating agency in Canada, with a term of less than 180 days; and bank term deposits and bearer deposit notes, with a term of less than 180 days.

The Company's maximum exposure to credit risk at the reporting date is the carrying value of cash and cash equivalents, and amounts receivable.

Liquidity Risk
The Company manages liquidity risk by maintaining adequate cash and cash equivalent balances. If necessary, the Company may raise funds through the issuance of debt, equity or monetization of non-core assets. The Company ensures that there is sufficient capital to meet its obligations by continuously monitoring and reviewing actual and forecasted cash flows, and match the maturity profile of financial assets to development, capital and operating needs.

The following table presents the financial instruments recorded at fair value in the balance sheet, classified using the fair value hierarchy:

		Level 1		Level 2		Level 3		Total financial assets at fair value
Financial assets								
Cash	$	2,478,438	$	-	$	-	$	2,478,438
