## 1. Nature of Business and Basis of Presentation

Sanatana Diamonds Inc. (“Sanatana” or the “Company”) was incorporated on June 25, 2004 in the Province of British Columbia under the British Columbia Business Corporations Act. The Company is an exploration stage company, and its principal business activity is the acquisition, exploration and development of properties. The Company has mineral property rights in the Northwest Territories which it is exploring and developing in a joint venture with Kennecott Canada Exploration Inc. (“Kennecott”) in Canada.

The Company is in the process of exploring its mineral property interests and has not yet determined whether its mineral property interests contain mineral reserves that are economically recoverable. The Company’s continuing operations, and the underlying value and recoverability of the amounts shown for mineral properties are entirely dependent upon the existence of economically recoverable mineral reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its mineral property interests, and on future profitable production or proceeds from the disposition of the mineral property interests.

The business of exploring for and mining of minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. Changes in future conditions could require material write-downs of the carrying values.

Although the Company has taken steps to verify title to the properties in which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company’s title. Property title may be subject to unregistered prior agreements, unregistered claims, and non-compliance with regulatory requirements.

## 2. Ability to Continue as a Going Concern

The accompanying annual financial statements have been prepared in accordance with Canadian generally accepted accounting principles (“GAAP”) applicable to a going concern, which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. Accordingly, these financial statements do not reflect any adjustments to the carrying values of the assets and liabilities, the reported expenses, and the balance sheet classifications used that would be necessary if the going concern assumption were not appropriate. Such adjustments could be material. As at September 30, 2008 the Company has no source of operating cash flow and has an accumulated deficit of approximately \$4.2 million. Operations for the period ended September 30, 2008 have been funded primarily from issuances of capital stock.

### 3. Basis of Presentation and Adoption of Accounting Policies

These unaudited interim consolidated financial statements have been prepared in accordance with Canadian GAAP for the presentation of interim financial information. These financial statements do not include all disclosures required for annual financial statements and therefore should be read in conjunction with the most recent audited annual consolidated financial statements of the Company for the year ended March 31, 2008.

#### Presentation

Where applicable, comparative figures have been reclassified to conform with presentation used in the current year.

The financial statements follow the same accounting policies and methods of their application as the annual financial statements except as described below.

Effective April 1, 2008, the Company adopted the following accounting pronouncements:

- a) Section 3862, "Financial Instruments – Disclosures" and Section 3863, "Financial Instruments – Presentation" which replace Section 3861 "Financial Instruments– Disclosure and Presentation". The new disclosure standard increases the emphasis on the risks associated with both recognized and unrecognized financial instruments and how those risks are managed. The new presentation standard carries forward the existing presentation requirements. These new standards are effective for the Company for periods beginning on or after October 1, 2007. Adoption of Section 3862 and Section 3863 will not have a material impact on the Company's financial statements.
- b) Section 1535, "Capital Disclosures", which requires companies to disclose their objectives, policies and processes for managing capital. In addition, disclosures are to include whether companies have complied with externally imposed capital requirements and, if not in compliance, the consequences of such non-compliance.
- c) Section 3031, "Inventories", which replaces the existing Section 3030 and establishes standards for the measurement and disclosure of inventories. The new standard provides more extensive guidance on the determination of cost, including allocation of overhead, requires impairment testing and expands the disclosure requirements. Adoption of Section 3031 has not had a material impact on the Company's financial position and results of operations.
- d) Updated Section 1400, "General Standards on Financial Statement Presentation" which includes requirements to assess and disclose a company's ability to continue as a going concern. Adoption of the revised Section 1400 has not had a material impact on financial statement disclosure.

### 3. Basis of Presentation and Adoption of Accounting Policies

The Company plans to adopt accounting pronouncements as follows:

- a) Section 3064, "Goodwill and Intangible Assets". This section replaces Section 3062, "Goodwill and Other Intangible Assets" and Section 3450, "Research and Development Costs". Various changes have been made to other sections of the Canadian Institute of Chartered Accountants ("CICA") Handbook for consistency purposes. Section 3064 establishes standards for the recognition, measurement, presentation and disclosure of goodwill subsequent to its initial recognition and of intangible assets by profit-oriented enterprises. Standards concerning goodwill are unchanged from the standards included in the previous Section 3062. The new section will be applicable to financial statements relating to fiscal years beginning on or after October 1, 2008. Accordingly, the Company will adopt the new standards for its fiscal year beginning April 1, 2009. The Company is currently assessing the impact that the adoption of this standard will have on its financial statements.
- b) On February 13, 2008, the CICA Accounting Standards Board adopted a strategic plan for the direction of accounting standards in Canada. As part of that plan, accounting standards in Canada for public companies will converge with International Financial Reporting Standards ("IFRS") by 2011. The Company continues to monitor and assess the impact of the convergence of Canadian GAAP and IFRS.

## 8. Stock Options

In 2005, the Company's shareholders approved a stock option plan (the "2005 Option Plan") which is a "rolling" plan that provides for the issuance to directors, officers, consultants and employees of the Corporation up to 10% of the common shares of the Company issued and outstanding at the date of the stock option grant. In July 2007, the Company's shareholders approved a stock option plan with similar provisions to the 2005 Option Plan under the rules of the Exchange. The 2007 stock option plan is considered a continuation of the 2005 option plan. The directors may set option terms, but options granted under the plan typically have a life of five years and vest over an 18-month period. In April 2008, the Company's board of directors changed the vesting period of granted options from three years to 18 months.
